PERSONAL STATEMENT

I am hard-working, honest and focused. I have recently graduated from a Generation cloud engineering course. This has allowed me to engage in my tech skills, such as working with Python 3 and Linux terminal (Bash) including networking. Prior to the course with generation, I utilised my abilities in HTML, CSS and JavaScript to construct web pages; to develop my understanding and skill set in web development. My aim is to find an entry level position as a Frontend/Backend Web Developer, as I enjoy working with technology. This will enable me to strengthen my skills whilst gaining valuable experience and progress on to becoming a Full Stack Web Developer. I have proven customer service skills acquired within the security sector requiring the ability to work in a fast-paced environment and excellent organisational skills. A team player who enjoys working with the public, able to motivate and encourage others.

KEY SKILLS

- Knowledge of using PowerShell, Bash and Linux/Windows
- Familiar with AWS(Amazon Web Services), HTML5, CSS3, JavaScript, Python, Pandas, SQL including Git/GitHub
- Demonstrated the ability to work independently and as part of a group; communicate effectively to encourage teamwork
- Effective time management to be able to prioritise tasks in order to complete a task
- Communicate detailed instructions through articulate speech and proficient writing skills

EXPERIENCE

Generation UK, Trainee Cloud Engineer, AWS re/Start, London, August - October 2024

The course covered a wide range of topics over a time period of 12 weeks; Mon-Fri 9-to-5, that are essential to working in the field of tech, from technical skills to soft skills and how to utilise them in the work environment. To promote development over time, when taking on tasks.

- Learnt about Linux operating systems; navigation in the CLI (command line interface), how to create Bash scripts to automate system functions
- Acquired new tech skills such as working with Python, databases and networking
- Created my own EC2 instance on AWS and connected to it
- Improved on soft skills, for example teamwork and communication to carry out activities in groups

WORK EXPERIENCE
